ABOUT US.

Profile

Since 1985

We are a manufacturing company established in 1985 and specializing in making shoelace aglet film, shoelace tipping machines, removable paper bag strings(paper bag buckle aglet), general string tipping films, reflective materials to meet growing demand of major factories in the world.

Innovation research and development

Through time-consuming and costly R&D, we have been dedicated to improving the quality of our products. The tipping films can be well applied to shoelaces, garment stings and many kinds of string-related items. We also have developed a removable sting (paper bag buckle), our well-received patent product, which wonderfully serves as the handle for paper bags as well as all kinds of paper bags. The removable string is very convenient and amazingly durable. In fact, it can well sustain 30kg weight.

With our continued dedication to product R&D, we take pride in the quality of all of our products. We are committed to customer satisfaction guarantee and good business relationships with our customers.

PELLET.

- Cellulose Acetate Pellet / 醋酸纖維膠粒 -

Cellulose Acetate resin is made from wood pulp and cotton linter natural raw material.

Acetate (CA) is suitable for injection molding and extrusion molding, and is used for hand tools, parts of machinery such as oil tank and shoelace film.

Highly transparent and high impact strength, resistance to oil and resist stress is the most advantage compared with other plastic material.

醋酸纖維樹脂，採用純天然樹皮以及棉花纖維萃取製造而成，天然環保材質。

ACETATE (簡稱 CA)，廣泛適用於射出以及押出成型材料，產品成型應用於手工具材料、機器零件、耐油子化學之油杯以及鞋帶、繩袋膠片應用。

高透明性與耐衝擊性，為其他塑料所無法取代之優點。

PAPER BAG STRINGS.

Paper Bag Strings

手提繩帶 (魚鉤型手提繩)

Feature:

1. Suitable for various of paper handbag, boxes which are carried handful.
2. Lessen volume, save time and space of the transport, easy to operate makes more capacities and save cost.
3. Afford 30kg weight
4. The order is suitable in both of Taiwan and China, vertical integration makes price more competitive.

Specification

Length: 31cm (suitable for any length according to the order)
Diameter: 3-7mm
Material: Polyester, PP, PET, T-Dolon, COTTON
Color: 26 kinds of reference color
Tipping material: Acetate

特色:

1. 適用於各類手提紙袋、包裝袋、紙盒、手提蛋糕盒提把、包裝材料提把
2. 體積小，節省運送空間，穿戴容易，節省時間，提高產量，降低成本
3. 最大承受重量：30 公斤
4. 大陸、台灣皆可接單生產，產品垂直整合，價格競爭力高

規格

長度：31cm (長度可依顧客需求訂製)
直徑：3-7mm
材質：Polyester, PP, PET, T-Dolon, 棉
繩帶顏色：26 種參考色
兩端包覆材質：Acetate Bag Buckle

METAL AGLET.
